

THE WHITE HART

Flitton

I would like to take a moment to go through what measures we have taken to ensure we are all as safe as possible and can enjoy the eating out experience at this time.

1, By being as efficient in our setup & organisation we have managed to have just a very small team to run the whole pub.

2, We will use something called an off load table. It will be a separate table a small distance away from your own which we will use to put down your food and drinks for you which you can then distribute to the people at your table. Once you have finished your meals and/or drinks we ask you just put the empties on that table. You wont have to get up to do this. We then clear from this table. All this means we never have to lean over you to put things down or pick things up. We aim to stay 2 metres apart at all times even when delivering the food & drinks.

3, We are using disposables as much as possible including condiments like ketchup and vinegar, salt & pepper sachets. There will be nothing on the table to give contamination an opportunity. Every table will be sanitised after every use and paper towel will be used, not reusable cloths. One use menus are also being used.

4, We decided to use the marquee as it has the best air circulation and space to distance. Each table is approximately 2/3 metres apart.

5, We have carried out strict risk assessment's and are confident that all guidelines are being followed.

6, Doors will be left open to minimise contact patches and automatic hand driers installed in the toilets so no contact is made to clothes and towels when drying hands.

7, The marquee entrance will be the only way into the building reducing contact patches.

8, It's bookings only for now and they will be staggered throughout the evening.

9, Please use the hand wash station just outside the toilets before you go in.

10, Glasses will be pre washed before they go into the glass wash machine with a special sponge & chemical designed to clean the rim of the glass. Plates will also be pre-washed by hand and put through the dishwasher.

11, All staff will be required to wear face masks.

12, All our guests are asked to maintain social distancing at all times and thus will be strictly enforced.

Thank you
